SENSORY STEPPING STONES

Class Descriptions

SSS3 - This class caters for children who require substantial support.

Parents are encouraged to participate to help manage behaviour and the coaches will take care of the rest. We recommend this class for children with a diagnosis of ASD Level 3.

SSS2 - This class caters for children who require moderate support.

Parents are encouraged to be nearby. We recommend this class for children with a diagnosis of ASD Level 2.

SSS1 - This class caters for children who require minimum support but will cope better in a quieter and more supported learning environment. We recommend this class for children with a diagnosis of ASD Level 1.

Werribee Gymnastics' SSS Program is designed for gymnasts with different neuro-diversity.

We cater for Autism Spectrum Disorder, ADHD, Sensory Integration Disorder, Developmental Delay and children who need extra support for participation.

The program is designed by an experienced gymnastics coach and an OT and taught by specialty trained gymnastics coaches.

Not sure which class is best for your child? Get in touch and have a chat with our resident OT!
